Re.: Intimation for receipt of organic certification by the Company.

We are pleased to inform you that the Company has obtained an organic certification from the Control Union, an international inspection and certification body accredited by the Agricultural and Processed Food Products Export Development Authority ("APEDA") under the National Program for Organic Production (NPOP – India). The said organic certification is obtained by the Company for its range of enzymes to be used as inputs for organic processing/production of food and as feed additives / ingredients

This is first-of-its-kind certification obtained for enzymes in India under the NPOP.

By obtaining the aforementioned organic certificate, the Company can now supply its enzymes to customers as organic input in the food and the feed industries.

This is for information & records.

Thanking you,
Yours faithfully,
For **Advanced Enzyme Technologies Limited**

Sanjay Basantani
Company Secretary & Head-Legal
